FLOORS: TERRAZZO

**GOAL: A SUSTAINABLE FLOOR MAINTENANCE SOLUTION FOR
RETAIL CUSTOMERS**

SUPRASHINE SOLUTION

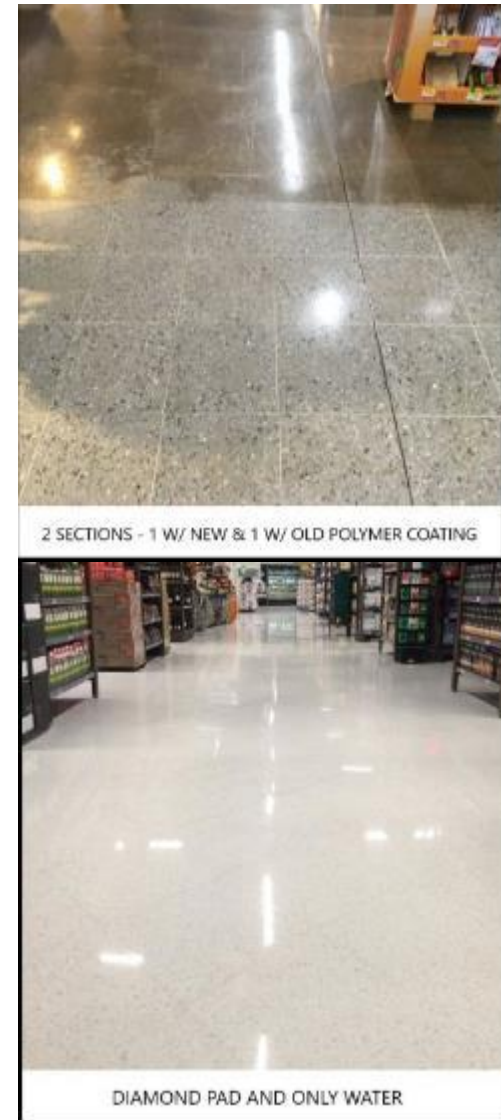

Floors like Cementitious Terrazzo, have suffered due to use of expensive and inferior maintenance solutions, such as polymer coatings. When investing in new floors, owners should take into account the actual cost of the maintenance of those floors and if this is a high cost, they should choose another floor with lower maintenance cost.

DAILY CLEANING WITH SUPRASHINE HP 3500

TODAY, ALL SUPERMARKET CHAINS WITH THIS TERRAZZO FLOOR MUST FOLLOW THE NEW MAINTENANCE PROTOCOL AND USE SUPRASHINE PADS AND WATER ONLY.
